Marco Amantea

Junior Frontend Developer — React • TypeScript • Node.js

Junior Frontend Developer specialized in building modern web applications using React and TypeScript, with experience developing full web platforms integrated with Firebase, Node.js and MySQL databases. Currently working as a freelance developer delivering complete web solutions including UI/UX design, frontend development and production deployment.

Freelance projects completed • UI/UX responsive design • React web applications

Experience

Freelance — B&B AmalfiRa Luxury Seaview Rooftop
React / Firebase / Netlify
12/2025 — 02/2026
Full development of the official website including responsive UI/UX design, technical SEO optimization and dynamic content integration through Firebase. Frontend performance optimization through component refactoring and image optimization.
Official Website

Freelance — MuDiF | Museo Didattico della Fotografia
React / Strapi / Node.js / Firebase
2025 — ongoing
Development of a digital platform for a photography museum with structured content, articles and educational materials. Focus on UI/UX, scalability and content management system integration.
Official Website
